Association.

Los Angeles. October 17th.—The attendance at the Agricultural Park this afternoon to witness the first day's races of the third annual fair given by the Sixth District Agricultural Association was larger than has been seen at the Park for several years, a great many ladies being among the spectators. The day was beautiful and the track in good condition. The first event was a trotting race for the three-minute class, best three in five, for which there were four entries—E. L. Mayberry's Ludy Washington, L. J. Felton's Hunter, and L. H. Titus' Hattie Johnson. Ludy Washington was the favorite, selling at two to one. The first heat was won by Ludy Washington, Don Carlos seeond, Hunter third, and Hattie Johnson fourth. Time, 2:36½. The second heat was won by Iady Washington in 2:39. The third heat was closely contested by Don Carlos, but Lady Washington maintained her place in the lead and came in ahead, winning. Time, 2:37½. The second was a running race, half-mile dash, for a purse of \$200, in which three started—Will & Guess' Dottie Dimple, Machado's Ballona Gift, and J. W. Adams' Aunt Betsy, the latter the favorite. Betsy took the lead at the start, maintaining it to the end, winning. Time, 2:48½. The exhibition of thoroughbred stock of all kinds is the the end, winning. Time, :487. The exhibition of thoroughbred stock of all kinds is the

largest and finest seen, and this department of the fair may be pronounced a decided success. At the Pavilion there is a large display of fruits and agricultural products. The exhibit of grapes is especially fine, nearly 200 varieties being represented. Messrs. Rose, Shorb, Dreyfus and other vignerons, have large exhibits of wines and brandles, embracing all the varieties made in The Yreka Fair. YREKA, October 17th .- The first race to-

day was trotting, two-in-three, for all un-tried horses. Jay Beach named Favorite, J. Tierney named Mary D., Wm. Eckhart named Curtis, Ned O'Neil named Ned. The race was won by Cartis in a single heat, all the others being distanced. Time, 3:261. The second race was running, half-mile-and-repeat, for all herses owned in the district. signed as a comfortable home for ladies and gentlemen visiting the city from the interior. No dark rooms. SWINGING BOUND .THE CIRCLE.

In politics, as in religion, men are apt accept many things without inquiry or effection. This tendency is nowhere more strikingly manifested than when the subdivisions of parties are seen to occupy the most discordant positions without the least apparent embarrassment. In Presidential elections it has often happened that State platforms were at war with national platforms, yet the men who made the former were nevertheless ready to support the latter. In the present State campaign this confusion is specially marked. Thus the Republicans of San Francisco in their municipal platform have just adopted a resolution insisting upon equal taxation for railroads. That plank is directly at variance with the Republican State platform, which pledges the party to a communistic. discriminating, malignant warfare upon the corporations. How the San Francisco each day at 2 P. M. bringing the Eastern and coast Republicans can accept the principles of Judge Field's recent decision, and at the same time swallow the declarations of their State platform, it is impossible to underis carried by morning trains, and is ahead of all stand save on the hypothesis that the feat is accomplished mechanically, and without any mental process whatever. In this county the Republicans have adopted a platform which may be said to have hardly anything in common with the State platform. It is far more discordant with the latter than is the Democratic State platform, in fact. Its central position is a demand for just treatment of the railroads, whereas the central position of the

State platform is a demand for unjust treatment of the railroads. How, then, can the Sacramento Republicans, who certainly believe in the soundness of their county platform, accept and support the State sold at \$1 90, which is 10c lower than for a long platform? Clearly this is impossible by any intellectual compromise. They can only Kentucky, for some reason, sold at \$2 35, against do it by shutting their eyes resolutely to the inconsistency of the situation. But it is manifest that when county and

city and State platforms are so utterly incompatible, they must represent a distinct want of sincerity and conviction somecounty platform to favor Free Trade, for Protection, without bringing out this fact very plainly. Yet it exists quite as conspicuously in the present condition, and the only doubtful question is where the ablature requiring the authorities to render prisoners sence of conviction is to be located. If a voter affects to support two diametrically opposite policies at the same time, it is evident that he is deficient either in inteltrict have nominated Alexander P. The suppleness manifested in these changes of policy emphasizes the fact that this campaign is simply and solely one for the spoils of office. There were no vital ground, one being killed and the others badly hurt. issues before the people when it was commenced. False issues were accordingly manufactured, and sham convictions adopted. The stump speakers on both sides have been uttering sentiments which they do not believe. In several notable instances, as we showed yesterday, they have been going counter to their own previously expressed convictions. In reality they have been trying to out-bid one Mrs. K therme Dewitt Whiting died suldenly of another in the greedy and sordid scramble for votes, and they have exhibited an absence of scrupulousness in this business which augurs ill for the people should any of them be placed in positions of responsi smooth over the awkward incongruities of the situation by dealing in vague generalities; but if the voters were accustomed to compare notes they would soon perceive THE dreaded diphtheria is appearing at various that there was a prevailing falsity points in the State. In Sacramento several cases which honest men cannot tolerate. What nia proposes, for instance? The reply must be that it proposes several things, all of which are hopelessly incompatible. It form on corporations without equarely traversing the Sacramento and San Francisco platforms on the same issue. Which side, then, will be carried out? Are those who believe in unjust discrimination against railroads to be gratified, or is a

The most probable answer to any such question must be that the State platform authoritatively represents the position of the party, and that the county and city and who ssembled in opposition to the power of platforms are merely local expressions of opinion, which have no force. But if this be true it remains to be explained why the power in Utah on a host of charges of a serious counties and cities which do not accept the character, alleging that it has made Utah a land of State policy should support the State platform. For if the answer given above is the correct one, it follows that the local the body adjourned to a later day. The Conven. protests against the State platform cannot tion arranged for the permanent organization of a have any practical effect beyond making it plain that the Republicans who support both are capable of very surprising intellectual gymnastics. But no matter from what point of view we analyze the situation, we shall be brought back to the one perfectly clear and self-evident conclusion, namely, that there is no principle or conviction behind the present campaign. The parties and candidates are "swinging "round the circle," making themselves all things to all men, and the voters are expected to accept the most incongruous and mutually destructive positions without protest or remonstrance, merely because they are all alike dubbed with the party

What can the matter be? Thus far no "straws the platform, and seeks to give plausibility

study the Constitution more carefully. The fact is that under the new dispensation that instrument can be amended in a very short time. Whenever two-thirds of all the members elected to seats of the two Houses vote in favor of such an amendment "it shall be the duty of the

Legislature to submit such proposed amendment or amendments to the peo ple in such manner, and at such time, and after such publication as may be 'deemed expedient." And if the people give a majority vote in favor of it, the amendment is adopted. Under this provision it is possible to amend the Constitution within three months from the begin ning of the process. The Legislature which meets on the first of January can adopt a Constitutional Amendment by the 15th of that month, call an election for the middle or end of February, and after the people have adopted the amendment can enact appropriate statutes to enforce it, all within the ordinary legislative session. This being the case, perhaps the Independ ent will see the necessity of withdrawing its insinuation that the Farmer's Convention was controlled by "corporation in-'fluence" in proposing the amendment of the Constitution so as to equalize taxation. AN UPHILL TASK The San Francisco Chronicle has very

rashly and foolishly set itself the impossi-

ble task of demonstrating that Mr. John T. Doyle is a "reliable enemy" of the railroad. As we have before remarked, Mr. Doyle has an official record, and that official record shows that when he was a Railroad Commissioner he did not do any of the terrible things which his blackmail defender wishes him to be credited with. Mr. Doyle's peculiarity is that when he is out of office he makes a great deal of noise, but when he is in office he becomes very conservative. His report as Railroad Commissioner in 1877 may fairly be cited as a judicious and ably-reasoned defense of the Central Pacific Railroad Company. The Chronicle, it may be observed, does not where. It would be impossible for a shows Mr. Doyle to have been a very good friend of the railroad when he was in office. To say that he was better than Stoneman, moreover, is ridiculous, seeing that they were colleagues, and that their official record is precisely the same. But since it is now impudently pretended by the Chronicle that Mr. John T. Doyle would under given circumstances have done more than Stoneman did, it is in orligence or sincerity. Partisans, however, Mr. John T. Doyle was a Railroad Comder to point out that as a matter of fact missioner at a time when he had no opposition in the Board, and that despite this absence of opposition he did not do anything. In short, whoever wants a Commissioner warranted to act in any particular way will seek in vain to find in John to ride two horses going in opposite direction the advisability of selecting him for such dence enough that his former Commissionership was a very mild and gentle cam-

NEEDS INVESTIGATION.

A ship was wrecked on the Farallones antil after the vessel had struck. This is by no means the first complaint of the same kind. In fact it has been frequently charged that the fog-horns at the Faral. lones and San Francisco are neglected, and that many serious disasters have resulted from this neglect. The matter is so important that an investigation should be had. To have fog horns which are not house, acts as a lure to entrap vessels and hoped that the loss of the ship Bremen will bring this matter to a head, and stimuservice is really performed.

THE DECREASE OF REGISTRATION. According to ex-Registrar Louis Kaplan. the registration of voters in San Francisco ward registration for the latter year, up to and including October 14th, was 30,291; for the present it is 23, 187, showing a falling off of 6 646. The registration at the central office shows a decrease of 8.202 as against that of 188C. Of course it is impossible to say with any certainty which party is most strongly represented by the delinquents, but judging from previous elections it is not an unfair presumption that the Democrats have attended to registration more faithfully than their opponents. In any case it looks as though the vote less than that of 1880, and this difference cannot but have a very important bearing

ARABI'S TRIAL.

It begins to look as though serious difficulties may arise regarding the trial of Arabi Pasha. The English and Egyptian systems of justice are so hopelessly discordant that it would be impossible to unite them. Nor indeed has England the right to demand that the customs of the country should be set aside on this occasion. On the other hand if Arabijis tried the result of his injuries.

are a number of cases at the present time. The only death recorded thus far occurred yesterday morning, being that of John Fern Larkin, oldest child of John N. and Sallie Larkin, who died of this disease after an ss of only two days. The boy was in his 15th year, and a very bright, promising and intelligent youth. Mrs. Larkin was visiting in San Francisco, but, in answer to a telegram, arrived home before the death of her son. The lad was well known in the city, as he moved much among men on the affairs of his father's business, and being amiable, prompt and modest, he won the friendship of all. His sudden death caused general sad comment yesterday, and the extension of the sympathy of all who knew nim to his stricken parents. There have been but few cases of this disease in Sacramento since three years ago, when it became almost an epidemic. The disease is quite prevalent in some other portions of the State at the

The following is from the Sacramento Leader of a recent date and contains matter for the thoughtful citizen :

In our last issue we spoke of the neces-

sity of sending an active, able, energetic man to the State Senate. We said we be-lieved Grove L. Johnson to be such a man. The iron work for the new gasemeter at the gas works is now being shipped from San The next Legislature will have to redistrict Francisco. The first shipment was made the State, both as to Congressmen and members of the Legislature. We, of Sac-Hod Eldred and W. W. Cons will leave to-day for Honolulu. Last evening Mr. Eldred shipped ten head of horses from his county, except San Francisco. But we are stable to the tules. no longer the second county in the State. San Francisco's overflow has given Alameda almost double the number of people we have, and other counties also have outstripped Sacramento in their increase of population. It will require the utmost effort on the part of our legislators to retain Sacramento's present representation, and to maintain her supremacy in the councils of the State. man, amongst the nominees for State Senator, can do so much toward this end as Grove L. Johnson? While we do not wish to detract from the character of the other nominees, we will assert that Mr. Johnson would be a far greater power charge of misdemeanor. The arrest grew out of a difficulty which arose in regard to the removing of a tree which stood near the sidewalk on Eighth street, and on a property line. Another one of the cases of alleged violation of Section 315 of the Criminal Code, rethat the people of Sacramento agree with lating to houses of ill-fame, was tried by a jury in the Police Court yesterday. The jury, after a short deliberation, rendered a verdict of not guilty.

The opposition to Mr. Johnson is chiefly personal, and we say to all such: "Discard personal animosity, and vote for the ablest man." If this view is taken Deputy Sheriff Stevenson, of San Fran-Deputy Sheriff Stevenson, of San Francisco, arrived last night en route to Folsom, having in charge two prisoners sentenced to Folsom State Prison—John Welch, four years, for burglary, and Chee Kwork Wing, seven years, for robbery.

The ablest man, they will support Grove L. Johnson. We want more appropriations—for Capitol Park improvements and for grading N street. The forty-five thousand dollars heretofore appropriated the capital Park was secured almost of the question, and electors will vote for the ablest man, they will support Grove for the Capital Park was secured almost wholly through the efforts of Grove L Johnson. That money was all expended here, and benefited us. We need more, and Mr. Johnson is the best fitted to obtain it for us. We want N street graded. Mr. Johnson succeeded in having L street graded, and the same success will attend his efforts in regard to N street. The people know that Grove L. Johnson is the ablest man named for the position of State ponents can present our claims so strongly. No one of them, if elected, could assume a leading position in the Senate; whereas, Democratic Clubs. - The First Ward Mr. Johnson has been, as an orator, the Democratic Club met at Graham Hall last peer of any; and, as a worker, has co superior. Salutary Stimulation. When vital action is sluggish, a stimulant, provided it be pure and properly medicated, is the most reliable agent for imparting the necessary impetus to the semi-dormant organs, accelerating the languid circulation and averting the måladies to which functional inactivity give rise. Physicians who have employed Hostetter's Stomach Bitters in their practice pronounce it the most salutary tonic stimulant they have ever used, and especially commend it as a remedy for torpidity of the bowels, liver, stomach and kidneys, and as a resuscitant of vital energy. The medicinal value of the Bitters is due to the fact that with their basis of pure spirits are combined, in perfect chemical harmony, the best restorative and life-sustaining elements known to medical botany.
